To Whom It May Concern:

Saro Trading Company is delighted to pass along our highest level of recommendation for the solar work done for us by California Green Design. Their crew was prompt, professional, and courteous. The installation was virtually seamless - with no disruption to our regular work schedule. We have already started to enjoy the economic advantage of reduced energy bills, and are eagerly looking forward to major savings in our electrical bills once we enter into another hot Southern California summer.

If your company is looking to make a move which is as good for the environment as it is for your profit and loss statement, we can sincerely suggest you contact Sevan Varteressian, the owner of California Green Design, to see what he can do for you.

Thank you.

Kev Kalenderian
President
