Re: Reference

To whom it may concern:

We are very pleased with our recent solar installation by California Green Designs. The company salesman, engineers, representatives and workers were all knowledgeable, professional and helpful. They kept us informed about the progress as well as a few obstacles they encountered. The installation was done according to our requests and done in a timely way. They applied for our rebate and followed through to make sure it was received. We received it earlier than anticipated, thanks to their diligence.

Sincerely,

A handwritten signature in cursive script that reads "Rev. Dietrich N. Schleef".

Rev. Dietrich N. Schleef
